## **Intellect Lab To Give Customers Schmartboard Rebate**

**Intellect Lab to give a 5% rebate in the form of Schmartboard prototyping tools to customers of engineering and manufacturing services.**

**FREMONT, CA (June 28, 2004)** – Intellect Lab, an engineering services company has announced a 5% rebate in the form of Schmartboard prototyping boards. For a limited time Intellect Lab will give a 5% rebate in the form of Schmartboards. Customers choose the Schmartboards that they want. Most of the Schmartboard users today are professional engineers who want to test circuits before spending money on a costly prototype.

The Schmartboard solution allows one to in a matter of hours to put together a board and instantly make modifications as one needs to. Schmartboards are pre-traced printed circuit boards that are connectable like building blocks. Schmartboard calls the patented product, “Electronic Circuit Building Blocks”. They allow one to build electronic circuits on a SchmartBoard block by block, and then connect the blocks together to form a functional board. Because the boards are pre-traced, the need for wire jumpers is minimized, as opposed to breadboards or wire-wrap boards.
