Intellect Lab Adds Procurement Services

Sourcing parts can be a frustrating experience. Intellect Lab's procurement service can help you find parts whether we are manufacturing your project or not. We have established relationships domestically and throughout Asia that allow us usually to source parts at a significant cost savings. In addition, we can give you recommendations for potential 2nd source options so that parts availability and lead-time become easier to manage in the future. We do not charge a fee for doing the search, so give us a try.

Let us wipe away those tears for you today.

Intellect Lab in East Bay Business Times and Fremont Argus

East Bay Business Times

The East Bay Business Times and the Fremont Argus newspapers recently recognized Intellect Lab as a company who has prospered despite the economy. You can find the link to the Easy Bay Business Times at:
